**SECTION 2
INSTRUCTIONS FOR
BIDDERS**

INSTRUCTIONS FOR BIDDERS

WARNING: READ THESE INSTRUCTIONS FOR BIDDERS AND OTHER CONTRACT DOCUMENTS CAREFULLY. DO NOT ASSUME THAT THE DOCUMENTS ARE THE SAME AS SIMILAR DOCUMENTS YOU MAY HAVE SEEN, EVEN IF PREVIOUSLY PROVIDED BY THE DISTRICT.

1. Review of Plans and Specifications. Each bidder, at its own expense and prior to submitting its bid, shall thoroughly review and become familiar with all of the plans and specifications for the Project. A bidder is required to review the plans and specifications only in its capacity as a contractor, not as a licensed design professional. Each bidder must report to the District any errors or omissions in the plans and specifications revealed through such review.

2. Examination of Project Site and Contract Documents. Each bidder, at its own expense and prior to submitting its bid, shall visit the site of the Project and become fully acquainted with the conditions relating to the construction and labor so that the bidder fully understands the facilities, difficulties, and restrictions attending the execution of the work under the contract. At no time after submitting a bid may the bidder dispute, complain, or assert that there were any misunderstandings with regard to the nature or amount of work to be done in connection with the Project.

3. Interpretation of Contract Documents. If a bidder is in doubt as to the true meaning of any part of the Contract Documents, or finds discrepancies in or omissions from the drawings and specifications, the bidder may submit to the District a written request for an interpretation or correction thereof.

4. Contractor Licensing. Each bidder must be properly licensed in the State of California and “in good standing” at the time of submitting its bid to the District.

5. Listing Subcontractors. As required pursuant to the Subletting and Subcontracting Fair Practices Act, each bidder shall submit with its bid a list of the names and locations of the places of business of each subcontractor that will perform work or labor or render service to the bidder in or about the Project, or that, under subcontract to the bidder, will specially fabricate and install a portion of the work, in an amount in excess of one-half of 1 percent of the total amount of the bidder’s bid.

6. Use of Bid Form is Mandatory. Each bid must be submitted on the Bid Form included in the bid documents.

7. Signing the Bid and Other Required Forms. The Bid Form, bonds, subcontractors lists, contractor’s certificates, attachments to the Agreement Form, guarantees and other documents requiring an original signature of the bidder must be signed in permanent, preferably blue, ink by a person or persons duly authorized to sign the document.

8. Delivering the Bid. For purposes of the Notice Inviting Bids and these Instructions for Bidders, any reference to the “Bid Deadline” shall mean the date and time specified as the Bid Deadline in the Notice Inviting Bids and any authorized extension thereto. Bids must be delivered to and received by the District at the location specified as the place for submitting bids and by the Bid Deadline.

9. Modifying a Bid. Prior to the Bid Deadline, a bidder may modify its bid by submitting the written modification to the District, which must be received by the District not later than the Bid Deadline.

10. **Withdrawing a Bid.** A bidder may withdraw its bid at any time prior to the Bid Deadline, either personally or by written request received by the District prior to the Bid Deadline.

11. **District Waiver of Bid Irregularities.** The District, in accordance with applicable law, may waive any minor irregularity or informality in any bid or in the bidding.

12. **District Rejection of Non-Responsive Bids.** If a bid fails to conform to requirements set forth in the Notice Inviting Bids, these Instructions For Bidders, or any of the other Contract Documents (including, without limitation, if the District determines that the bid is unintelligible, internally inconsistent, or ambiguous), the District may reject the bid as not responsive to the Notice Inviting Bids.

13. **District Award of Contract.** In its discretion, the Governing Board may award a contract for the Project to a responsive bidder, or the Governing Board may reject all bids and may (but is not required to) rebid the Project.

14. **Public Works Project.** The Project is a “public work” and “public project” within the meaning of, and, therefore, is subject to, various provisions of the Public Contract Code, Labor Code, Civil Code, and other legal requirements applicable to public works and public projects.

15. **Subcontractor Eligibility and Licensing.** The bidder to which the District awards a contract for the Project shall in no event permit a subcontractor to perform any work in connection with the Project if that subcontractor is ineligible to work on a public works or public project.

16. **Labor Compliance and Prevailing Wages.** The contract awarded for the Project may be subject to the Department of Industrial Relation’s labor compliance program. The bidder shall be required to pay not less than the general prevailing rates of per-diem wages (“Prevailing Wages”). The District may require the Contractor to submit CPRs to the DIR’s Compliance Monitoring Unit.

17. **Fingerprinting and Employee Background Checks.** In circumstances that may involve workers having more than limited contact with students, the District may require that all workers on the Project (including, without limitation, employees of the bidder and its subcontractors) undergo criminal-history background checks requiring submission of fingerprints to the Department of Justice. The District may impose other requirements designed to protect students regardless of whether it requires such criminal-history background checks.

18. **Anti-Discrimination Policy.** It is a policy of the District that, in connection with any work performed under contract, there shall be no discrimination against any prospective or active employee engaged in the work because of race, color, ancestry, national origin, religious creed, sex, age, or marital status. No bidder shall discriminate in violation of applicable law in preparing and submitting its bid for the Project. The bidder to which the District awards a contract for the Project will be required to comply with applicable federal and California laws prohibiting such discrimination and to require like compliance by any subcontractors employed on the Project by such bidder.

Except for worker's compensation insurance, the policy shall not be amended or modified and the coverage amounts shall not be reduced without the District's prior written consent, and, the District shall be named as an additional insured and be furnished thirty (30) days written notice prior to cancellation. The Contractor shall not allow any subcontractor, employee or agent to commence work on this contract or any subcontract until the insurance required of the Contractor, subcontractor, or agent has been obtained.

a) **WORKER'S COMPENSATION INSURANCE:** The Contractor shall procure and shall maintain during the life of this contract Worker's Compensation Insurance on all its employees engaged in work under this contract, or at the site of the Project, and if the work is sublet, the Contractor shall require the subcontractor similarly to provide workers' compensation insurance for subcontractor's employees. Any class of employee or employees not covered by subcontractor's insurance shall be covered by the Contractor's insurance. The Contractor shall provide to the District a Certificate Regarding workers' Compensation available from the District prior to performing the work of the contract.

ARTICLE 7. LABOR CODE COMPLIANCE: This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations. The Contractor hereby stipulates that it shall comply with the applicable provisions of the California Labor Code, Division 2, Part 7, Chapter 1, Articles 1-5 ("Public Works Labor Code Provisions"), including, but not limited to, the payment of the general prevailing rates for public works projects of more than One Thousand Dollars (\$1,000) (§1771), hiring of Apprentices (§ 1777.5) and Working Hours (§ 1813), and Payroll Records (§ 1776). Prevailing rate of per diem wages are on the website of the Division of Labor Statistics and Research of the Department of Industrial Relations at www.dir.ca.gov/OPRL/. Contractor shall be responsible for all reports and obligations respecting such employees, including, but not limited to, social security taxes, income tax withholding, unemployment insurance, and workers' compensation insurance.

Contractor or subcontractor shall, as a penalty to the District, forfeit twenty-five dollars (\$25) for each worker employed in the execution of the contract by Contractor or subcontractor for each calendar day during which the worker is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of Article 3 of the Public Works Labor Code Provisions.

With regard to hiring of apprentices, the responsibility of compliance with Labor Code section 1777.5 shall rest with the Contractor.

Pursuant to the provisions of article 2 (commencing at section 1770), chapter 1, part 7, divisions 2 of the Labor Code of California, the Director of Industrial Relations has ascertained the general prevailing rate of per diem wages in the locality in which this public work is to be performed for each craft, classification or type of worker needed to execute the contract. Said determinations are available to any interested party on the web site (www.dir.ca.gov).

Holiday and overtime work, when permitted by law, shall be paid for at a rate of at least one and one-half times the general prevailing rate of per diem wages as determined by the Director of Industrial Relations, unless otherwise specified. Each worker of the Contractor or any of his subcontractors engaged in work on the project shall be paid not less than the general prevailing rate of per diem wages determined by the Director of Industrial Relations, regardless of any contractual relationship which may be alleged to exist between the Contractor or any subcontractor and such workers.

Each worker needed to execute the work on the project shall be paid travel and subsistence payments, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Department of Industrial Relations in accordance with Labor Code section 1173.8.

The Contractor shall, as a penalty to the District, forfeit not more than fifty dollars (\$50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of Industrial Relations for the work or craft in which the worker is employed for any public work done under the contract by him or by any subcontractor under him. Prevailing wage rates shall also be used when determining wages paid for change order items. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the Contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the Contractor in meeting his prevailing wage obligations, or the Contractor's willful failure to pay the correct rates of prevailing wages. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the Contractor, and the Contractor shall be bound by the provisions of Labor Code section 1775.

Any worker employed to perform work on the project, which work is not covered by any classification listed in the general prevailing rate of per diem wages determined by the Director of Industrial Relations, shall be paid not less than the minimum rate of wages specified therein for the classification which most nearly corresponds to work to be performed. Such minimum wage rate shall be retroactive to the time of initial employment of such person in such classification.

Pursuant to Labor Code section 1773.1, per diem wages are deemed to include employer payments for health and welfare, pension, vacation, travel time, subsistence pay and similar purposes. Contractor shall post at appropriate conspicuous points on the site of project, a schedule showing all determined minimum wage rates and all authorized deductions, if any, from unpaid wages actually earned.

Contractor and each subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him in connection with the public work.

The payroll records required above shall be certified and shall be available for inspection at all reasonable hours at the principal office of the Contractor on the following basis:

- a) A certified copy of an employee's payroll record shall be made available for inspection or furnished to such employee or his or her authorized representative on request.
- b) A certified copy of all payroll records shall be made available for inspection or furnished upon request to a representative of District, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.
- c) A certified copy of all payroll records shall be made available upon request to the public for inspection or copies thereof made; provided, however, that a request by the public shall be made through either the District, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. The public shall not be given access to such records at the principal office of the Contractor.

Contractor shall file a certified copy of the records required above with the District or entity that requested such records within ten days after receipt of a written request. Any copies of records made available for inspection as copies and furnished upon request to the public or any public agency by the District, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated in such a manner as to prevent disclosure of an individual's name, address, and social security number. The name and address of the Contractor shall not be marked or obliterated.

Contractor shall inform the District of the location of the records required above, including the street address, city and county, and shall, within five working days, provide a notice of a change of location

and address. In the event of noncompliance with the requirements of this article regarding maintenance of records, the Contractor shall have ten days in which to comply subsequent to receipt of written notice specifying in what respects the Contractor must comply with this article. Should noncompliance still be evident after such ten-day period, the Contractor shall, as a penalty by the District, forfeit twenty-five dollars (\$25) for each calendar day, or portion thereof, for each worker until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, such penalty shall be withheld from progress payments then due.

ARTICLE 8. APPRENTICES: Apprentices of any crafts or trades may be employed and, when required by Labor Code section 1777.5, shall be employed provided they are properly indentured to the Contract in full compliance with provisions of the Labor Code. The prime contractor shall bear the responsibility of compliance with Labor Code section 1777.5 for all apprenticeable occupations and agrees that he will comply with said section which reads: "Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works. Every apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he is employed, and shall be employed only at the work of the craft or trade to which he is registered."

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070), of Division 3, of the Labor Code, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the District, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contact award information to the applicable joint apprenticeship committee which shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate date the apprentices will be employed. There shall be an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentice work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The Contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the Contractor shall endeavor, to the greatest

extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The Contractor or subcontractor, if he is covered by this section, upon the issuance of the approval certificate, or if he has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the Contractor that he employs apprentices in such craft or trade in the state on all of his contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman, or in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the Contractor from the 1-to-5 hourly ratio as set forth in the section. This section shall not apply to contracts of general contractors or to contracts of specialty contractors not proposing work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand (\$30,000) or 20 working days. This section shall not use any work performed by a journeyman in excess of eight hours per day or 40 hours per week to calculate the hourly ratio.

“Apprenticeable craft or trade,” as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with the rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met: a) Unemployment for the previous three-month period in such area exceeds an average of 15 percent. b) The number of apprentices in training in such area exceeds a ratio of 1-to-5. c) If there is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis, or on a local basis. d) Assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his life, or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him who, employs journeymen or apprentices in any apprenticeable craft or trade to perform work under the contract and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do. Where the trust fund administrators are unable to accept the fund, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. This contractor or subcontractor may add the amount of the contributions in computing his proposal for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Labor Code Section 227.

The District awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all

apprenticeable occupations with the prime contractor. All decisions of the joint apprenticeship committee under this section are subject to Labor Code Section 3081.

ARTICLE 9. WORK HOURS: As provided in article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code, eight (8) hours of labor shall constitute a legal day's work. The time of service of any worker employed at any time by the Contractor or by any subcontractor on any subcontract under this contract upon the work or upon any part of the work contemplated by this contract is limited and restricted to eight (8) hours during any one-calendar day and forty (40) hours during any one-calendar week, except as hereinafter provided. Notwithstanding the provisions hereinabove set forth, work performed by employees of Contractor in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon this public work upon compensation for all hours worked in excess of eight (8) hours per day at not less than one and one-half times the basic rate of pay.

The Contractor and every subcontractor shall keep accurate record showing the name and actual hours worked each calendar day and each calendar week by each worker employed by him in connection with the work or any part of the work contemplated by this contract. The record shall be kept open at all reasonable hours to the inspection of the District and the Division of Labor Law Enforcement, Department of Industrial Relations of the State of California.

The Contractor shall pay to the District a penalty of twenty-five dollars (\$25) for each worker employed in the execution of this contract by the Contractor or by any subcontractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any calendar day and forty (40) hours in any one calendar week in violation of the provisions of article 3 (commencing at section 1810), chapter 1, part 7, division 2 of the Labor Code.

Any work necessary to be performed after regular working hours, or on Sundays or other holidays shall be performed without additional expense to District

ARTICLE 10. INDEMNIFICATION: District shall not be liable for, and Contractor shall defend, indemnify, and hold harmless the District, its officials, employees, agents and volunteers, against any and all claims, demands, liability, judgments, awards, fines, mechanics' liens or other liens, labor disputes, losses, damages or injury, in law or equity to property or persons, including wrongful death, expenses, charges or costs of any kind or character, including attorneys' fees and court costs (hereinafter collectively referred to as "Claims"), which arise out of or are in any way connected to the Project or this contract arising either directly or indirectly from any act, error, omission or negligence of Contractor or its contractors, licensees, agents, servants, volunteers or employees, including, without limitation, Claims caused by the concurrent act, error, omission or negligence of District or its agents or employees. However, Contractor shall have no obligation to defend or indemnify District from a Claim if it is determined by a court of competent jurisdiction that such Claim was caused by the active negligence, sole negligence, or willful misconduct of District or its agents or employees. Contractor shall reimburse District and its directors, officials, officers, employees, agents and volunteers, for any and all legal expenses and costs incurred by each of them in connection therewith or in enforcing the indemnity herein provided.

ARTICLE 11. MATERIALS: Contractor warrants good title to all material, supplies and equipment installed or including in the work. Except as otherwise specifically stated in this contract, Contractor shall provide and pay for all materials, labor, tools, equipment, water, lights, power, transportation, superintendence, temporary constructions of every nature, and all other services and facilities of every nature whatsoever necessary to execute and complete this contract within specified time. Unless otherwise specified, all materials shall be new and both workmanship and materials shall be of good quality. Materials shall be furnished in ample quantities and at such times as to insure uninterrupted progress of work. Contractor shall be entirely responsible for damage or loss by weather or other causes to materials or work under this contract.

ARTICLE 12. PATENTS, ROYALTIES AND INDEMNITIES: The Contractor shall hold and save the District and its officers, agents and employees harmless from liability of any nature or kind, including cost and expense, for or on account of any patented or unpatented invention, process, article, or appliance manufactured or used in the performance of this contract, including its use by the District, unless otherwise specifically stipulated in the contract documents.

ARTICLE 13. GUARANTEE: Besides guarantees required elsewhere, Contractor shall, and hereby does, guarantee all work for a period of one year after date of acceptance of work by District and shall repair or replace any or all such work, together with any other work, which may be displaced in so doing, that may prove defective in workmanship and/or materials within a one year period from date of acceptance without expense whatsoever to District, ordinary wear and tear, unusual abuse or neglect excepted. District will give notice of observed defects with reasonable promptness. Contractor shall notify District upon completion of repairs.

This article does not in any way limit the guarantee of any items for which a longer guarantee is specified or on any items for which a manufacturer gives a guarantee for a longer period. Contractor shall furnish District all appropriate guarantee or warranty certificates upon completion of the project.

ARTICLE 14. PROTECTION OF WORK AND PROPERTY: The Contractor shall be responsible for all damages to persons or property that occur as a result of his fault or negligence in connection with the prosecution of this contract and shall be responsible for the proper care and protection of all materials delivered and work performed until completion and final acceptance by the District. All work shall be solely at the Contractor's risk. Contractor shall adequately protect adjacent property from settlement or loss of lateral support as provided by law and contract documents. Contractor shall take all necessary precautions for safety of employees on the work and shall comply with all applicable safety laws and building codes to prevent accidents or injury to persons on, about, or adjacent to premises where work is being performed. Contractor shall erect and properly maintain at all times, as required by conditions and progress of work, all necessary safeguards, signs, barriers, light and watchmen for protection of workers and the public and shall post danger signs warning against hazards created by such features in the course of construction. Contractor shall designate a responsible member of the organization on the work, whose duty shall be prevention of accidents. Contractor shall report name and position of person so designated to District. In an emergency affecting life and safety of life or of work or of adjoining property, Contractor, without special instruction or authorization from District, is permitted to act at its discretion to prevent the threatened loss or injury. It shall be the responsibility of the Contractor to ascertain from the District the rules and regulations pertaining to safety, security and driving on school grounds, particularly when children are present

ARTICLE 15. DISTRICT'S RIGHT TO TERMINATE CONTRACT: If the Contractor refuses or fails to prosecute the work or any separable part thereof with such diligence as will insure its completion within the time specified or any extension thereof, or fails to complete said work within such time, or if the Contractor should be adjudged a bankrupt, or if Contractor should make a general assignment for the benefit of creditors, or if a receiver should be appointed on account of insolvency, or if Contractor should persistently or repeatedly refuse or should fail, except in cases for which extension of time is provided, to supply enough properly skilled workers or proper materials to complete the work in time specified, or should fail to make prompt payment to subcontractors or for material or labor, or persistently disregard laws, ordinances or instructions of District, or otherwise be guilty of a substantial violation of any provision of the contract, or if Contractor or subcontractors should violate any of the provisions of this contract, then District may, without prejudice to any other right or remedy, serve written notice upon Contractor and surety of its intention to terminate this contract, such notice to contain the reasons for such intention to terminate, and unless within ten days after the service of such notice such condition shall cease or such violation shall cease and satisfactory arrangements for the correction thereof be made, this contract shall upon the expiration of said ten (10) days, cease

and terminate. In the event this contract is terminated as provided herein, District may procure, upon such terms and in such manner as it may determine appropriate, services similar or identical to those terminated.

ARTICLE 16. COMPLIANCE WITH STORM WATER PERMIT:

Contractor shall be required to comply with all conditions of the State Water Resources Control Board ("State Water Board") National Pollutant Discharge Elimination System General Permit for Waste Discharge Requirements for Discharges of Storm Water Runoff Associated with Construction Activity ("Permit") – General NPDES Permit No. CAS000004 adopted by the State Water Resources Control Board. Contractor shall be responsible for filing the Notice of Intent and for obtaining the Permit and include all costs in the Contract amount. Contractor shall be responsible for procuring, implementing and complying with the provisions, monitoring and reporting requirements as required by the Permit. In addition to compliance with the Permit, Contractor shall comply with the lawful requirements of any applicable municipality, the District, drainage district, and other local agencies regarding discharges of storm water to the storm drain system or other watercourses under their jurisdiction, including applicable requirements in municipal storm water management programs. Contractor shall provide copies of all reports and monitoring information to the District Representative.

Storm, surface, nuisance, or other waters may be encountered at various times during construction of the Project. The Contractor, by signing this contract, hereby acknowledges that it has investigated the risk arising from such waters, has prepared its proposal accordingly, and assumes any and all risks and liabilities arising therefrom. Failure to comply with the Permit is in violation of federal and state law. Contractor hereby agrees to indemnify and hold harmless District, its officials, officers, agents, employees and authorized volunteers from and against any and all claims, demands, losses or liabilities of any kind or nature which District, its officials, officers, agents, employees and authorized volunteers may sustain or incur for noncompliance with the Permit arising out of or in connection with the Project, except for liability resulting from the sole established negligence, willful misconduct or active negligence of the District, its officials, officers, agents, employees or authorized volunteers. District may seek damages from Contractor for fines or delay in completing the Contract in accordance with the Contract Documents, caused by Contractor's failure to comply with the Permit or other regulatory regulations. Contractor shall provide copies of all reports and monitoring information to the District Representative.

ARTICLE 17. CLEAN UP: Contractor at all times shall keep premises free from debris such as waste, rubbish and excess materials and equipment caused by his work; debris shall be removed from premises. Contractor shall not leave debris under, in, or about the premises. Upon completion of work Contractor shall clean interior and exterior of building including fixtures, equipment, walls, floors, ceilings, roofs, window sills and ledges, horizontal projections and any areas where debris has collected so surfaces are free from foreign material or discoloration; Contractor shall clean and polish all glass, plumbing fixtures and finish hardware and similar finish surfaces and equipment and remove temporary fencing, barricades, planking and construction toilet and similar temporary facilities from site.

ARTICLE 18. PROVISIONS REQUIRED BY LAW DEEMED INSERTED: Each and every provision of law and clause required by law to be inserted in this contract shall be deemed to be inserted herein and the contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provisions is not inserted, or is not correctly inserted then upon application of either party the contract shall forthwith be physically amended to make such insertion or correct.

ARTICLE 19. EXCAVATION DEEPER THAN FOUR FEET: If this contract involves digging trenches or other excavations that extend deeper than four feet below the surface, then all of the following apply:

- a. The Contractor shall promptly, and before the following conditions are disturbed, notify the

District, in writing of any: (1) Material that the Contractor believes may be material that is hazardous waste, as defined in section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law. (2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to proposers prior to the deadline for submitting proposals. (3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

- b. Upon receiving any such notice, the District shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the Contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in this contract.
- c. In the event that a dispute arises between the District and the Contractor whether the conditions materially differ or involve hazardous waste, or cause a decrease or increase in the Contractors' cost of, or time required for, performance of any part of the work, the Contractor shall not be excused from any scheduled completion date provided for by this contract, but shall proceed with all work to be performed under the contract. A contractor shall retain any and all rights provided either by contract or by law, which pertain to the resolution of disputes and protests between the contracting parties.

ARTICLE 20. REMOVAL OR RELOCATION OF MAIN OR TRUNKLINE UTILITY FACILITIES: The Contractor shall not be assessed for liquidated damages for delay in completion of this project, when such delay was caused by the failure of the awarding authority of this contract or the owner of the utility to provide for removal or relocation of the existing main or trunkline utility facilities; however, when the Contractor is aware that removal or relocation of an existing utility has not been provided for, Contractor shall promptly notify the awarding authority and the utility in writing, so that provision for such removal or relocation may be made to avoid and minimize any delay which might be caused by the failure to remove or relocate the main or trunkline utility facilities, or to provide for its removal or relocation. In accordance with section 4215 of the Government Code, if the Contractor while performing the contract discovers any existing main or trunkline utility facilities not identified by the public agency in the contract plans or specifications, he shall immediately notify the public agency and utility in writing. The public utility, where they are the owners, shall have the sole discretion to perform repairs or relocation work or permit the Contractor to do such repairs or relocation work at a reasonable price. The Contractor shall be compensated for the costs of locating, repairing damage not due to the failure of the Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the project necessarily idled during such work.

ARTICLE 21. CHANGES AND CHANGE ORDERS: Change orders may not cause the total aggregate cost of the project to exceed \$45,000 or the project will become subject to competitive bidding. The District, without invalidating contract, and as provided by law, may order extra work or make changes by altering, adding to, or deducting from work, the contract sum being adjusted accordingly. All such work shall be subject to prevailing wage rates and shall be executed under the conditions of the original contract except that any claim for extension of time caused thereby shall be adjusted at the time of ordering such change. In giving instructions, Contractor agrees that the District shall have authority to make minor changes in work, not involving change in cost, and not inconsistent with the purposes or approvals of the project. Otherwise, except in an emergency endangering life or property, no extra work or change shall be made unless pursuant to a written order from District, and no claim for an addition to the contract sum shall be valid unless so ordered.

ARTICLE 22. PAYMENTS: The Contractor shall submit to the District an invoice requesting payment for completion of the Work. The District shall review payment request and, as soon as practical, shall:

(i) certify that the request is correct in all aspects and should be paid by the District; (ii) reject the request as not proper, stating the reason(s) why rejection is appropriate; or (iii) require that the Contractor provide additional information that the District reasonably determines is necessary to verify the requested payment amount. In the event the District rejects the request for payment, the Contractor may resubmit the request with additional or new information establishing why payment should be made despite the reason(s) set forth in the District's initial rejection. The District shall pay the undisputed amount of the Contractor's request for payment, less any amounts that may be withheld or retained pursuant to this Contract or applicable law, within thirty (30) days of receipt of such request and in accordance with Public Contract Code Section 20104.50.

ARTICLE 23. RESOLUTION OF CONSTRUCTION CLAIMS OF \$375,000 OR LESS: For public work claims of \$375,000 or less between Contractor and District, if District has not elected to resolve disputes by arbitration pursuant to article 7.2 (commencing with section 10240) of chapter 1 of part 2 of the Public Contract Code, the provisions of article 1.5 (commencing with section 20104) of chapter 1 of part 3 of the Public Contract Code apply ("Article 1.5").

For purposes of Article 1.5, "public work" means "public works contract" as defined in Public Contract Code section 1101. "Claim" means a separate demand by Contractor for a time extension, or payment of money or damages for work done by or for Contractor, payment for which is not otherwise expressly provided in the contract or to which Contractor would not otherwise be entitled, or a payment disputed by District.

Each claim shall be submitted in writing before the date of final payment and shall include all necessary substantiating documentation. District shall respond in writing within forty-five (45) days of receipt of the claim if the claim is less than \$50,000 ("\$50,000 claim") or within sixty (60) days of receipt of the claim, if the claim is over \$50,000 but less than or equal to \$375,000 ("\$50,000-\$375,000 claim"). In either case, District may request in writing within thirty (30) days of receipt of the claim, any additional documentation supporting the claim or relating to defenses to the claim the District may have against the claimant. Any additional information shall be requested and provided upon mutual agreement of the District and the claimant. District's written response to the claim shall be submitted to claimant within fifteen (15) days after receipt of the further documentation for \$50,000 claims or within thirty (30) days after receipt of the further documentation for \$50,000-\$375,000 claims or within a period of time no greater than that taken by the claimant in producing the additional information, whichever is greater.

Within fifteen (15) days of receipt the District's response, if claimant disputes District's written response or within fifteen (15) days of the District's failure to respond within the time prescribed, the claimant shall provide written notification to District demanding an informal conference to meet and confer ("conference") to be scheduled by the District within thirty (30) days. If the claim or any portion of the claim remains in dispute following the meet and confer ("meet and conference") to be scheduled by the District within 30 days. If the claim or any portion of the claim remains in dispute following the meet and confer conference, the claimant may file a claim as provided in Chapter 1 (commencing with section 900) and Chapter 2 (commencing with section 910) of Part 3 of Division 3.6 of Title 1 of the Government Code. For purposes of those provisions, the period of time within which a claim must be filed is tolled from the time the claimant submits a written claim until the time the claim is denied, including time utilized as a result of the meet and confer process.

If a civil action is filed to resolve claims within sixty (60) days (but no earlier than thirty (30) days) following the filing or responsive pleadings, the court shall submit the matter to nonbinding mediation unless waived by mutual stipulation of both parties. The mediation process shall provide that both parties select a disinterested third person mediator within fifteen (15) days, shall be commenced within thirty (30) days of the submittal and concluded within fifteen (15) days from the commencement of the mediation unless time is extended upon a good case showing to the court or by stipulation of both parties. If the parties fail to select a mediator within the 15-day period, any party may petition the

court to appoint the mediator.

If the matter remains in dispute, the case shall be submitted to judicial arbitration pursuant to chapter 2.5 (commencing with section 1141.10) of title 3 of part 3 of the Code of Civil Procedure, notwithstanding section 1141.11 of that code. The Civil Discovery Act (Title 4 (commencing with section 2060.010 of part 4 of the Code of Civil Procedure) shall apply to any proceeding brought under this subdivision consistent with the rules pertaining to judicial arbitration. The court may, upon request by any party, order any witness to participate in the mediation or arbitration process.
